Flip4Mac WMV 2.4.2.4
Release Notes

Flip4Mac WMV is a collection of QuickTime™ components that allow you to play, import and export Windows Media® files. Flip4Mac WMV can be used with most of your favorite QuickTime applications including Microsoft PowerPoint and Apple Keynote.

System Requirements
- Intel or PowerPC (G4/G5)
- Mac OS X 10.5 or later, including Lion
- QuickTime 7.2.1 or later
- QuickTime Pro 7.2.1, Compressor or Episode recommended for advanced conversion options **NOTE**: QuickTime X does not support conversion using third-party plug-ins. For Snow Leopard users, we recommend installing QuickTime 7. Please see our compatibility chart for QuickTime Player versions and optional conversion tools.

Upgrades
After installing Flip4Mac WMV you can play Windows Media files in QuickTime Player and view Windows Media content on the Internet using Safari, Firefox and Google Chrome web browsers.

By upgrading Flip4Mac WMV you will be able to import Windows Media files for conversion to other popular formats such as:
- MOV (Final Cut Pro, iMovie)
- MP4 (iTunes, iPod, iPhone, iPad, Apple TV)
- MPEG-2 (Video DVD)
- MP3 and AAC (iTunes, iPod, iPhone, iPad)

You can also create Windows Media files for distribution. These features are available in trial mode until you're ready to purchase an upgrade.

You can purchase an upgrade at the Flip4Mac Store or directly from the software by selecting Flip4Mac WMV in the System Preferences application.

Additional QuickTime based applications such as QuickTime 7 Player Pro, Compressor, Episode or others may be required to convert WMV and WMA to other formats.

Windows Media Digital Rights Management (DRM)
While the Flip4Mac WMV plug-in provides superior playback performance, it is unable to play content that has been protected using Windows Media Digital Rights Management (DRM).

New Features in this Release
- None

Fixes in This Release
- Fixed possible crashing and display issues in the browser plugin.
- Numerous fixes in the licensing engine to deal with closed networks and new installations under Lion.

Feedback
Bugs, feature requests, and suggestions can be reported at the Flip4Mac WMV support site or visit the discussion at the Telestream User Forum.
