ScreenFlow 1.2.1 Release Notes

About ScreenFlow Release Version 1.2.1

ScreenFlow updates can be downloaded from
http://www.flip4mac.com/screenflow_download.htm

New in ScreenFlow 1.2.1

- eSellerate in-app purchase and eSellerate serial numbers.
(NOTE: If you already registered ScreenFlow on the machine, ScreenFlow will continue to recognize this number. However, if you want to install on another computer, you cannot enter the old, Vara-generated number, and will need to contact technical support.)

Enhancements in ScreenFlow 1.2.1

- Improved support for Hardware Zooming during recording

Fixed issues in ScreenFlow 1.2.1

- Fixed recording full-screen apps (games, mostly)
- Fixed recording when screen resolution changes
- Fixed conflict with WireTap Anywhere
- Fixed problem when low frame rates were requested (e.g. 8 fps)
- Fixed an issue that could cause crashes when resizing clips in some circumstances
- Fixed a memory leak caused when exporting audio
