Simplifies creation of VOD assets and provisions it for dynamic ad insertion

Lightspeed Server

Blazingly fast GPU-accelerated processing for Vantage

Vantage Cloud

Vantage anytime, anywhere on a pay-as-you-go basis

Pipeline

Network video capture and playout

MacCaption & CaptionMaker

Closed captioning software

Switch

The only media player professionals need to play, inspect, and correct their media files

Episode

Multiformat media encoding

Wirecast

Live streaming production

Product News

Vantage – Avid Integrated Solutions

- New Vantage pricing for Avid solutions

New Vantage Camera Ingest capabilities

- Automatically detect incoming shots, creating files ready to edit
- Automatically stitch and time-align shots to create daily stringouts and simplify multi-camera shoots
- Now supports Panasonic, Sony and Canon cameras (more are on the way)

Tempo

- Adjust running time of file-based content while maintaining program quality
- Intelligently interpolate the desired time change over the duration of the content
- Retime the complete asset, including video, audio, and captions
- Unmatched quality consistent with broadcast & network-level requirements
- Runs on the Vantage media processing platform and Lightspeed Server

Vantage Panel for Adobe Premiere Pro

- Send Premiere Pro projects directly to Vantage using the new extension panel
- Submit a job, watch its progress and reprioritize jobs as needed—all within Adobe Premiere Pro

Post Producer

- New: automation of animated titles using Titler Engine powered by NewBlueFX
- Save time using spreadsheet work orders to Vantage workflows
- Enhanced NLE timeline input support for Avid MediaComposer & Adobe Premiere Pro
- Support for new VOD Producer and VOD Producer DAI products

VOD Producer DAI – now available

- Simplify & automate production of DAI-provisioned CableLabs VOD content
- Assemble final output from audio, video, graphics, and metadata
- Includes Nielsen watermarking for viewership measurement
- Is fully compatible with existing cable infrastructure

Lightspeed K80 Server

- Newest addition to the Lightspeed family
- Award-winning image quality
- Accommodates even the most demanding processing tasks
- GPU acceleration maximizes job throughput
- Significant improvement in processing speed

Vantage Cloud

- Vantage Cloud is fast, secure, scalable and affordable
- New Vantage Cloud 1.4 pricing means "pay as you go" without a monthly subscription charge

Switch

- Switch Plus license level (\$49) with added playback support and professional Audio Meters
- Added export support: MOV, MPEG-4, MPEG-2 PS/TS (PLUS & PRO)
- External preview to AJA devices including (PRO)
