# Live video streaming production software for Mac & PC

Capture | Produce | Stream

---

With Telestream's Wirecast  
you can easily stream  
professional-looking video to  
Facebook, YouTube & Twitter.

Engage with your live audience!  
Curate and display social  
media comments live on screen  
in your broadcasts!

Wirecast allows you to stream using multiple live cameras, bring in remote guests and screenshares, and dynamically mix in other media-like movies, images, and sounds. Easily add production features such as stinger transitions, instant replay, playlists, built-in titles, chroma key, virtual sets, live scoreboards and clocks. Wirecast is ideal for broadcasting professional-looking live internet shows, news, online gaming, sporting events, concerts, church services, corporate meetings, lectures and much more.

#### Capture from cameras and other input sources,

Wirecast supports an unlimited number of sources ranging from web cameras (via USB), to professional HDMI or SDI cameras (via capture cards), local network PTZ controlled NDI cameras and SDI sources, and even remote guests, web and mobile devices. Wirecast supports a large number of capture cards and devices including many from AJA, Blackmagic Design, Magewell, Teradek and more. Simply connect your input sources to your computer and Wirecast will recognize them as live feeds.

With Wirecast Rendezvous you can send a link to anyone on a smart device or computer to join you in your live broadcast – with the click of a button.

#### Easy to use

You don't need to be a video professional to create polished live broadcasts. Wirecast is easy and affordable – all you need is a camera, a computer and an Internet connection to broadcast your live video productions to any audience, live or on-demand at a fraction of the cost of other live video streaming solutions.

### Mix, match and switch your media

Wirecast's powerful production capabilities make it easy to switch between multiple live camera feeds while dynamically mixing in prerecorded video, audio, graphics and slides.

**Note:** features described on this page may not be present in all models of Wirecast—please look at the “*Compare Wirecast Models*” table at the back of this sheet to see product differences.

### Powerful, professional production features

- **Stock Media Library:** Over 500,000 unique, high quality media assets. A custom-built portal gives you direct access to transitions, motion backgrounds, royalty-free backing tracks, and videos from right within Wirecast. Included with an active Wirecast Access Plan.
- **Stream to multiple platforms at the same time:** Wirecast allows you to stream and record to more than one destination at a time. Just login with your account name to leading social media platforms or stream to any RTMP server.
- **Wirecast Rendezvous:** Bring multiple live guests into your broadcast with Wirecast's built-in peer-to-peer conferencing and remote production system. Just send them a link and they can join from any smart device or computer.
- **Multiple user-definable layers:** Wirecast's multiple layer support allows live compositing with up to 250 layers and unlimited shots.
- **Social Media Integration:** Built in Twitter comment curation and display, integrated Facebook Polling, live viewer counts keep you engaged with your audience.
- **NDI input and output:** Bring any NDI source on your network directly into Wirecast. Output your program feed via NDI (available in Pro)
- **Professional titles & motion graphics:** Built-in Animated Title Library. Add even more graphics and titles with the integrated Stock Media Library videos and images.
- **Built-in screen capture:** Capture any screen or computer on your network. Perfect for PowerPoint or Keynote presentations, online gaming, or for broadcasting live interviews using Skype or other chat clients.
- **Instant replay, ISO recording, A/V Sync, multi-viewer:** Packed with professional video features like 17-slot multi-viewing and previewing, audio and video syncing. With Wirecast Pro you can record any source into a separate file or use for multi-angle replays
- **Multi-track, multi-channel audio:** Mix, map, process, and record multi-track audio files, with support for ASIO compatible devices (available in Pro)
- **Playlists:** Queue a list of multiple videos, images, audio or live shots to play successively.
- **Chroma Key:** Transport your production to a new studio or location using Wirecast's high quality GPU accelerated real-time green screen solution.
- **Live scoreboards & clocks:** Use the built-in scoreboards, live clocks and timer templates to track scores and play time for live action sporting events.
- **Midi controller support:** Switch shots, fade and balance audio, and more with these convenient hardware interfaces: AKAI APC40 mkII, AKAI APC mini, and the Novation Launchpad.
- **3D Virtual sets:** Create a virtual TV studio environment with Wirecast Pro's built-in sets. Expand your sets with optional Virtualsetworks add-on Packages (\$329/6-pack).
- **Local Wifi camera (iOS)** Add unlimited iOS camera sources on your Local Area Network (LAN) using Wirecast Go's free local camera feature.
- **And much more...**

### Languages Supported

English, Brazilian Portuguese, Czech, Dutch, French, German, Italian, Japanese, Korean, Spanish, Swedish and simplified Chinese.

### Streaming protocol support

RTMP, SRT, RTP, and MMS (Windows).

### Encoding and recording format support

X264, ProRes, Motion JPEG, and Windows Media (Windows).

Plug in your  
cameras

### Audio/Video Sources

#### Devices:

- Cameras: SD/HD SDI, HDMI, USB, USB-C, and Thunderbolt
- iOS / Wirecast Go
- Microphones: USB, Line In, XLR
- Audio interfaces, mixers, and ASIO devices

#### Web/IP:

- Web streams: RTMP, RTSP, MMS, HTTP
- Screen Capture and Remote Desktop Presenters
- IP Cameras
- Web Display
- NDI™
- PTZ control (VISCA)

#### Other:

- System Audio Capture
- Media Files

Capture  
your content

### Hardware

#### Computers:

- Mac (Silicon & Intel)
- PC
- Wirecast Gear (Win10)
- Quad-core processor recommended

#### Video Capture:

- PCIe
- Thunderbolt
- USB 3.0/3.1
- AJA, Blackmagic, Magewell and more...

Produce  
your show

### Software: Wirecast

#### Live production:

- Rendezvous remote conferencing
- Live switching
- Multi-viewer
- Social media comments
- Transitions
- Built-in Animated Lower Third and Title Library
- Chroma key
- Picture in Picture (PIP)
- Audio Mixer with 16 channels mappable to 8 tracks per source
- Scoreboards
- Countdown clock and chronograph
- A/V delay
- Replay and ISO recording
- Playlists
- Shot templates and Placeholders

#### Encoding:

- Software: X264, H.264, RTMP, SRT, ProRes, MJPEG, AAC, and WMV
- Hardware: Intel QuickSync, nVidia NVENC, Apple H.264

Stream it  
live

### Destinations

#### Deliver to:

- Facebook Live, YouTube Live, Twitter, more
- CDNs
- Streaming servers
- Record to disk
- Virtual camera and microphone out (e.g. Skype)
- HD-SDI output
- Multi-viewer
- Live program out via hardware or via Secondary Display Output

## Don't want to build your own system?

### We built one for you!

Wirecast Gear is a turnkey system for live video streaming production, designed specifically around Wirecast. Powerful and portable, it includes everything you need to start streaming in minutes. It comes in three models, all of which include a 4-channel capture card, Wirecast Pro and advanced NewBlue Titling software.

Call us at +1 877-681-2088 or visit [www.telestream.net/wirecastgear](http://www.telestream.net/wirecastgear) to learn more.
