

Advanced Stream Redirector (ASX) Support

I. Introduction

Flip4Mac WMV supports a small subset of the ASX file format. The list below includes the four supported elements. All other elements and properties will be ignored. Keep in mind that because ASX file references other files, if those files are not supported, they may be ignored, or they may cause Flip4Mac WMV to stop parsing the rest of the file.

II. ASX Element Support

1. ENTRY
2. REF
3. STARTTIME
4. DURATION

III. Protocol Support

1. MMS over HTTP
2. MMS over RTP

IV. File Type Support

1. WMV
2. WMA
3. WM
4. ASF
5. ASS
6. WVX
7. WMX
8. WAX
9. ASX

V. Mime Type Support

1. video/x-ms-wmv
2. audio/x-ms-wma
3. video/x-ms-wm
4. video/x-ms-asf
5. video/x-ms-wvx
6. video/x-ms-wmx
7. audio/x-ms-wax
8. video/x-ms-asx
