

About This Release

This release includes the latest Harding PSE software, supporting the latest ITU-R BT.1702-3 recommendation. It also includes improved support for Harding PSE, allowing Base system customers to add a single Harding PSE license to multinode Vidchecker systems. It's also now qualified on Windows 11 and Windows Server 2022 & 2025.

QC Engine Version: 8.2.4

Released: Q4 2025
