
Kumulate Content Management Server

1RU Server

Telestream® Kumulate Content Management Server runs Kumulate. Housed in a 1RU chassis, it reduces rack space, power, and cooling requirements while meeting processing demands with ease. Providing powerful turn-key Content Management.

Manage Content on any Cloud or Hardware

Kumulate Content Management Server is a powerful solution combining storage management, workflow automation and light asset management. Kumulate optimizes file management across Cloud, on-premise, and hybrid storage. Kumulate's embedded workflow engine ensures that your video assets are always in the most cost-efficient and flexible storage layer and automates transcoding and metadata-driven workflows.

Kumulate Content Management Server provides a simple and easy-to-navigate interface so that you can quickly find, view & repurpose your content assets wherever they are stored.

Kumulate Content Management Server Features:

- Automated policy-based media movement with integrated transcoding
- Integrates directly into all Avid environments
- Search across structured metadata, time-based metadata, and unstructured metadata
- Partial file restores from any storage tier saves time
