kumulate

intelligent storage & asset lifecycle management

Kumulate is the smartest storage and content management system available for video creators, editors & distributors. Now it's available as a plugin for Adobe Premiere Pro, giving you direct access to powerful archiving, search and retrieval functions within your editing workflow.

Smart video storage management for smart video editors

FlashNet customers can upgrade to DIVA or Kumulate while keeping their yearly payments at the same price as their existing support fees.

- **Intelligent archiving for all your Premiere Pro content**
Easily archive individual files or complete projects to Kumulate.
- **Automatic lifecycle management**
Once archived, Kumulate automatically optimizes content storage across disk, tape or cloud.
- **Access to all your assets**
“Google-like” search across all the content in your Kumulate systems, using structured and unstructured metadata.
- **Federated Search**
Federation enables you to search and retrieve content across multiple Kumulate systems, wherever they are located.
- **Proxy playback**
Frame-accurate playback of archived assets.
- **Asset retrieval**
Move content from archive to editing storage, including individual sequences, complete projects or selected files.
- **Partial file restore**
Mark in and out points and restore only the selected segment.
- **Easy configuration**
Connect the Premiere Pro panel to any Kumulate system with minimal configuration.
- **Bi-directional marker support**
Timeline markers can be included within the archived asset and imported back into Premiere Pro.
- **View job progress**
Status of transfers, transcode and workflow tasks can be viewed from the panel inside Premiere Pro.
