Desktop Applications Manual Activation Guide

> ScreenFlow Wirecast Switch Episode Flip4Mac Flip Player

Introduction

This Manual Activation Guide is for Telestream customers who have purchased ScreenFlow, Wirecast, Switch, Episode, Flip4Mac, or Flip Player, and need to manually activate their serial number because their Mac is not connected to the Internet.

The instructions use ScreenFlow as an example. These instructions apply to each of Telestream's products listed above.

Manually Activating Your Application

After you purchase an application, you'll receive your Purchase Confirmation via email, so that you can activate your application. If the Mac computer where the application is installed doesn't have Internet access, follow these steps to activate it manually:

1. Run the application and select Preferences from the application's main menu (ScreenFlow, for example).

2. In the Preferences window, click the Licenses icon to display the Licenses panel.

3. Click the Enter Serial Number button to display the Activate Serial Number dialog. (The dialog displayed in your application may have a Name field – it is not necessary to enter your name.)

6. Click the second button in the list to indicate you're using a different computer, and click Next.

7. ScreenFlow displays the Activate Using Another Computer dialog.

8. Now, using the computer that has Internet access, go to https://activate.esellerate.net.

9. Enter the installation ID from the Product **Activation** dialog in the field provided, then click Submit.

The Web site returns a page which displays your unique activation key composed of ten groups of numbers and letters. If your Mac is not immediately adjacent, print this page or write down the activation key so you can enter it on your other Mac computer.

10. Return to your Mac computer and click Next. The application displays the Enter Activation Key dialog with 10 fields.
